INAUGURAL PUBLIC SALE OF TOWN LOTS AND MANUFACTURING SITES.

The Future Great Inland City of the Southwest,

Nortonville, at the Junction of the I. C. and L. & N. Railroads.

Surrounded on All Sides By Important Cities and Towns, Namely:

Evansville, Ind., Nashville, Tenn., Paducah, Owensboro, Henderson, Hopkinsville, Princeton, Russellville, Central City, Morganfield, Hodgenville, Eddyville, Fulton, Providence, Madisonville, Elkton, Smith Grove and many others.

A POINT AT WHICH OVER 80 TRAINS PASS DAILY.

A Town Site Possessing More Attractive, Original Features Than Any Inland City in America Had at Its Inception.

To Occur on WEDNESDAY and THURSDAY, JULY 20 and 21, 1904.

Nortonville is the Center of the Great Coal Mining Interests of Western Kentucky.

The Nortonville Coal Co., having recently become possessed of the town site and 2,000 acres surrounding it, and having expended large sums of money in sinking shafts and opening magnificent coal mines surrounding the site, which are producing wonderful results, employing over 300 artisans and miners, the families of which form a population of 1,000 people, have determined to offer to the public an opportunity to become original participants in the inauguration of what it believes is destined to be, and which, by reason of its location and natural advantages, must, at an early day, be a very important Inland City.

SOME OF THE ADVANTAGES OF NORTONVILLE.

Nortonville is the center of a fine agricultural section and sufficiently distant from Hopkinsville, Paducah, Evansville, Ind., Nashville, Tenn., and twenty other surrounding towns and cities above mentioned, all within a radius of twenty to fifty miles, to make it a distributing point for them and the adjacent country. The town site is a beautiful level valley, widening out to undulating hills, rich in coal and offering every inducement for the investor and the homeseeker. The water supply is abundant, the climate and all other conditions are such as to justify the prophecy that with a little energy and enterprise on the part of its own people it will soon be one of the best inland towns in the State of Kentucky.

THE NORTONVILLE COAL CO.

has demonstrated its faith in the merits and future prospects of this property by expending a half-million of dollars in opening mines, building houses, improving the social and moral conditions and starting the various enterprises which are necessary for the well-being of the present population. With magnificent R. R. facilities and cheap fuel, the nucleus of a thriving town is already formed.

Inviting the co-operation of the world at large in their enterprise, the company will, on July 20 and 21, offer for sale lots and tracts in accordance with a map, which will be ready for distribution July 1. Cheap accommodation for all who attend the sale will be provided, and the company will give a GRAND BARBECUE on the first day of the sale (July 20) to which all who attend the sale will be invited.

An effort will be made to secure reduced rates to parties attending the sale. The terms of the sale will be exceedingly liberal. For further information or map, write or apply to

TURN ON ARCS.

Light Company Ready to Give The Moon a Rest.

After Sixty Days of Darkness the Electric Light Plant is Restored.

The Hopkinsville Gas and Light Company, whose electric light power house was burned May 22, are about ready to resume business. The building has been restored and considerably enlarged, and the capacity of the plant increased from 120 power to 200 power. The new machinery is in place and it is barely possible that the lights may be turned on to-night, or to-morrow night. At any rate, regular service will be resumed next week, in less than 60 days from the destruction of the plant. The street lights have been greatly missed, but we have sometimes "had a moon."

GUTHRIE FAIR

Opens Tuesday—Carrie Nation And Guthrie Derby Features of Opening Day.

The Guthrie fair opens next Tuesday, July 19, and will continue during the week. The features of the opening day will be Carrie Nation, the famous saloon smasher, and her lecture, which will be delivered free from the grand stand, and the Guthrie Derby, the great running race, of one mile. All the free attractions will be given in full that day, and the event will be inaugurated with a rush. The management says that when the people come the first day and go home and tell their friends what a wonderful exhibition they saw, it will be all over but the shouting. The fair at Guthrie will be in all essential respects the same as will be given at Madisonville and Evansville, and the people will get the full worth of their money. All children under fifteen will be admitted free the first day, Tuesday. The night show that will be given is a novelty for Guthrie, but the management says when the crowd goes away the first night, and tell their neighbors about it, this will be one of the nicest features of the fair. No gambling or immoral devices of any character will be tolerated. Judge Givens has redeemed his promises in this respect in the past two years and there is no reason to doubt his word this year.

Went Back on Agreement to Play Series Here.

Clarksville Teams to Be in Hopkinsville for Three Games Next Week.

There will be no games of ball here this week. The games due to be played in Hopkinsville on the exchange made July 4 with Cairo, are being played in Cairo. Hopkinsville failed to reduce the agreement to writing and the Egyptians went square back on their word. The locals were given the alternative of playing the games there under Shuster or forfeiting them. The first of the series was played at Cairo Wednesday, and as might have been expected, resulted in Hopkinsville being Shustered out of the game by 5 to 1.

After two more games at Cairo—Thursday and Friday—Hopkinsville will play three games at Paducah—Saturday, Sunday and Monday. They will then return here for three games with Clarksville, beginning Tuesday, July 19. The teams, since our last report, have not changed their relative standing, in the percentage column, materially, the offset in the losses and gains being about equal.
